 **REELCRAFT®**

Why use hose reels?

Why use hose reels? Because they make hose handling more efficient and safer. Your hoses, cables and cords will last up to five times longer. You will improve hose management, which decreases labor costs. Your chances of injuries from

tripping hazards will decrease, which saves lost work time, medical bills and higher insurance. You also save the expense and time to replace expensive hoses, cables and cords that get run over by fork lifts and other vehicles.

Five reasons why hose reels add value

- 1. Improve efficiency** - Hoses, cable and cords are where you want/need them
- 2. Increase safety** - Reduce tripping accidents and lost work time
- 3. Minimize leakages** - Reduce costs of air and water leakages
- 4. Reduce hose wear** - Hose and cord on a reel can last up to five times longer
- 5. Increase productivity** - No more tangled hoses improves productivity

Series TWHD70000 Welding Hose Reel

Series B3000 Hose Reel and Series L 3000 Cord Reel

OSHA says reduce your trips and falls

"There are many situations that may cause slips, trips, and falls. The controls needed to prevent these hazards are usually obvious, but too often ignored, such as...coiling up extension cords, lines, and hoses

when not in use and keeping electrical and other wires out of the way." OSHA's "Fall Prevention Tips" include, "Practice good housekeeping. Keep cords, welding leads, and air hoses out of walkways or adjacent work areas."

Series 7000 and 80000 Hose Reels

Two Year Limited Warranty and Return Policy

Reelcraft now offers a two-year limited warranty. All reels manufactured by Reelcraft Industries, Inc. are warranted to be free of defects due to faulty material or workmanship for 2 years (1 year for Series LD, LG, LH cord reels, and reel covers; 6 months for hose and light bulbs) from date of shipment when properly installed, maintained, and operated in accordance with the recommendation of Reelcraft and the manual of instructions. Normal wear and tear is not considered a defect in material or workmanship. For complete warranty information and return information please visit reelcraft.com or call Reelcraft's Customer Service Department toll-free at 1-855-634-9109.

Reelcraft: Better by Design

Reelcraft's reels are better by design because of our lasting commitment to excellence. Our engineering team is well known for designing durable, high quality products. Our standard

features include durable, corrosion-resistant powder coat paint, multi-position guide arms for versatile mounting options, and heavy-duty, reinforced steel stampings for

increased strength. Our reels are permanently factory-lubricated for a long, trouble-free service life. All of these features, and many more, add up to make "The Reelcraft Difference."

Reinforced Steel

The steel-stamped guide arm is reinforced to reduce bending due to angular pull.

Improved Connection

The elongated brass connector and proprietary adhesion process provide a better crimp to the hose.

Stress-Free Swivel

Our full-flow design combines the highest grade seal design with supporting bearing surfaces to ensure the longest possible life.

Corrosion-Resistant

Steel components are individually powder coated to virtually eliminate corrosion.

Long Service Life

Field-proven swivel assures long service life.

Kinkless Hose

High quality PVC hose is specially blended for use on reels

Sealed Connection Points

Swivel and hose inlet connections seal against leaks

Adjustable Guide Arm

Multiple guide arm positions provide versatile uses and easier field adjustment

Trouble-Free Performance

Fewer components increase the service life of the reel and improve performance

Long Life Drive Spring

Drive mechanism is enclosed for protection against the environment. Declutching arbor virtually eliminates possibility of spring damage due to reverse winding of reel spool.

Robust Latch

Wide profile combined with special spring assures maximum service life.

Structural Strength

Welded heavy gauge steel frame includes a robotically welded base with stiffening ribs for lighter weight, yet stronger components for ease of handling and installation.

Easy to Mount

Attaches to most structurally sound surfaces. Edges are curved for safety.

Finish with Quality

Our components undergo a special five-stage cleaning process and are individually powder-coated for the highest quality paint adhesion. Excess powder is reclaimed to be environmentally friendly.

To place an order, please advise:

1. Model number
 2. Account number
 3. Shipping method
- Not a Reelcraft distributor? Visit our online interactive catalog to find an online or local distributor.

Additional Considerations:

A flexible connection between the reel and the source of supply is required to prevent possible misalignment and binding. Non-flexible connections will void the warranty. The pressure rating of inlet hose must be equal or greater than the rating of the reel.

***Consult Reelcraft for recommendations if installation height is more than 16 feet.**

Accessories

Reels ordered with hose and bumper are assembled complete and ready to install. Order bumpers separately for reels without hoses.

Additional questions? Please visit our website or call for assistance. For more than 50 years, our specialty is offering hose handling solutions.

Reelcraft's Online Interactive Catalog

Complete Online Catalog of Products

Reelcraft's interactive catalog gives users the ability to self-select the product they need for their specific application. The products are grouped into categories by application and gives the user the choice to narrow their search by filters such as hose/cord length, drive type, reel grade, etc. The individual product pages include all the available information for each product including:

- Product specs and dimensions
- Videos
- Quote request form
- Service manuals
- Available inventory
- Available parts and accessories
- Tech bulletins
- CAD drawings
- 360° images
- FAQs

Parts and Accessories

The interactive catalog also contains an extensive listing of parts and accessories. Search the catalog of over 250 hose assemblies by hose I.D., length, pressure rating, or end fitting size. The catalog also contains information for the following items:

- Replacement hose assemblies
- Bumper stop assemblies
- Swivel assemblies
- Inlet hose assemblies
- Roller guide assemblies
- Motors and motor accessories
- Swing brackets
- Pivot bases
- Reel covers

Visit www.reelcraft.com/catalog to start your search!

Guide Arm Positions

Series 9000 and 3000 reels are shipped in the **BW** position and Series 80000 is shipped in the **SW** position. All other series reels are shipped in the **TW** position. Kits are available for alternate guide arm positions. Contact Reelcraft for more information.

Medium Duty Spring Retractable Reels Air/Water/Oil - 1/4", 3/8", 1/2" I.D.

- Spool is constructed from a rugged engineered plastic
- Individually powder coated components offer maximum protection from premature corrosion
- The steel guide arm and base are stamped with ribs and gussets to ensure maximum strength and lightest possible weight
- Widened ratchet and latch pawl design greatly reduces wear and increases service life
- The industrial-grade drive spring completely containerized and permanently sealed
- Inlet hose is plumbed into the base to eliminate the risk of undue stress on the swivel
- Guide arm adjusts to seven positions

The technical drawing shows a circular component with a top view and a side view. The top view is a circle with a central hub and four radial spokes. Dimension lines indicate: B (overall diameter), A (height from base to top of the circular part), and C (width of the central hub). The side view shows the component's profile with dimension lines for: D (height of the base), E (total height), and Ø .343 (4) Places (four small holes on the base). The component has a flange on the left side.

Series 5000/5005 and A5000/A5005 reels include a speed latch mechanism that uses a cam and disc for quiet operation.

Series B5000/B5005 reels includes a ratchet latch mechanism that produces a distinct "clicking" noise while in use.

See operating instructions for optimum mounting configuration.

Premium Duty Spring Retractable Hose Reels

Air/Water/Oil/Grease - 1/4", 3/8", 1/2", 3/4" I.D.

- Robust and ideal for the most demanding applications
- Individually powder coated components offer maximum protection from premature corrosion
- Full flow swivel combines the highest grade seal design and materials with bearing areas for maximum service life
- Base and guide arm are formed from high-grade steel and engineered with structural forms and gussets to yield the greatest amount of strength
- Inlet hose is plumbed into the base to eliminate the risk of stress on the swivel
- Guide arm adjusts to seven positions

Heavy Duty Spring Retractable Hose Reels

Air/Water/Oil/Grease - 1/4", 3/8", 1/2", 3/4" I.D.

- Compact design - reels are 25% smaller than our Series 80000 reels
- Redesigned latching mechanism provides longer service life of the latch components
- Guide arm adjusts to seven positions
- Containerized drive spring offers easier handling during maintenance (size index 2 models only)
- High quality, die-cast aluminum hub and two sealed ball bearings produce a smoother spool rotation and easier operation

Ultimate Duty Spring Retractable Hose Reels

Air/Water/Oil/Grease - 1/4", 3/8", 1/2" I.D.

- Features an innovative, non-welded, interlocking base that increases the strength while utilizing fewer parts
- Independent testing to military standards has proven the reels stand up to heavy vibration, which makes them especially strong and ideal for truck-mounted applications
- Superbly engineered dual pedestal base and guide arm are structurally reinforced
- Torsion style latch spring life far exceeds that of conventional coil springs

Ultimate Duty Spring Retractable Reels

Air/Water/Oil - 3/8", 1/2", 3/4", 1", 1 1/4", 1 1/2" I.D.

- Ideal for service trucks, permanent service, or plant work areas
- Substantial base frame – full width frame has the greatest amount of mounting area and overall strength of reels within its class
- Latch and ratchet are made of heavy duty cast aluminum to limit the opportunity for premature wear
- Reels are shipped in the bottom wind position with right hand inlet; see Hose Guide Roller Position for other options

E9350 OLPBW

****Series G9000 reels have an external drive spring and a removable gooseneck.**

Spring Retractable Low Profile Reels

Air/Water/Oil/Vacuum Recovery - 3/4", 1" I.D.

- Designed to facilitate larger diameter 3/4 in. and 1 in. hose up to 50 ft.
- Features a high-quality external drive spring and a heavy gauge all-bolted together frame
- Stainless latch spring and widened aluminum ratchet/pawl
- Corrosion-resistant powder coat paint
- High impact HDPE guide rollers
- 1³/₈ in. solid main shaft
- Four 5/8 in. tie rods maintain reel integrity and provide added support
- Containerized external drive spring assembly offers easier handling during maintenance
- Ductile iron fluid path parts
- Torsion spring for longer service life
- Most compact reel in its class

Spring Retractable Pre-Rinse/Potable Water Reels

Water - 3/8", 1/2" I.D.

Potable Water

- Stainless steel, full flow shaft and CPVC swivel
- Suitable for use as a drinking water system component (does not include NSF/ANSI 61 Certification)
- Maximum operating temperature 73 °F (23 °C)

Pre-Rinse

- Lever-operated spray valve is included
- Optional 360° rotating swivel (600248) offers 20° of angular motion
- Push-Lok®, field replaceable, hose end fittings
- Rated for hot water up to 180 °F (82 °C)

Stainless Steel Fluid Path Reels

Chemical Delivery - 3/8", 1/2", 3/4", 1" I.D.

- Offers another level of protection in corrosive environments
- Stainless steel swivel and stainless steel main shaft - all components in contact with media
- Cast aluminum ratchet and latch pawl provide reliability and durability
- By design, the ratchet and latch pawl are substantially thicker than competing reels to reduce wear and increase service life
- Steel components are individually powder coated prior to assembly to maximize corrosion resistance
- Standard seals are FKM

Stainless Steel Hose Reels

Air/Water/Oil - 3/8", 1/2", 3/4", 1" I.D.

- Electropolished 304L stainless steel
- Ideal for applications where the harsh environment requires the use of stainless steel hose reels
- Stainless steel components offer the maximum protection from premature corrosion
- Swivel includes FKM O-rings

7800 OLS

See page 33 for Stainless Steel Cord Reels

D9300 OLSBW

Spring Retractable Reels Note: Standard latch parts are made from aluminum. Series 80000 and D80000 stainless reels have an aluminum fluid path. Stainless latch parts and fluid path are available in the -S part numbers (example: OLS-S).

Manual Crank Reels Note: The -S models include all stainless steel hubs and bushings and are ideal for high humidity and corrosive environments. Refer to reelcraft.com for stainless steel models with aluminum hubs and bronze bushings.

Spring Retractable Fuel Hose Reels

3/4", 1", 1 1/4", 1 1/2" I.D.

- Ideal for mobile and permanent-mount applications
- Suitable for a wide variety of fuel applications including E85
- Incorporates metal forms to ensure the greatest possible strength
- Latch and ratchet are made of heavy duty cast aluminum to limit the opportunity for premature wear
- Equipped with FKM seals
- Reels are all supplied with our ball-bearing style swivel

*Models equipped with UL330 and cUL Nitrile synthetic rubber (ORS) hose. 250 psi minimum burst (17 Bar). Flow rates of fuel hose are reduced by 30% with addition of internal spring type bend restrictors. For example, flow rate of F7925 OLP with internal bend restrictors is 9.0 GPM at 40 psi; flow without internal bend restrictors is 13.0 GPM at 40 psi.

Spring Retractable DEF Hose Reels

1/2", 3/4" I.D.

- Designed to aid in the dispensing of Diesel Exhaust Fluid (DEF) for late model diesel engines
- Reels constructed from industrial grade powder-coated carbon steel
- Internal fluid path parts are made from 304L stainless steel and feature FKM O-rings
- Models with hose include DEF dispensing hose with stainless steel fittings with NPT threads

Static Discharge / Grounding Reels

- Used to ground equipment operating in hazardous atmospheres
- Dissipates static electrical buildup, reducing the chances of sparking and the potential for explosion
- Reels require little mounting space for applications where space is a critical requirement
- Easily adjust spring tension – loosening two screws allows user to add or remove spring tension (except GHC3100 N)
- Made from industrial grade carbon steel or 304 stainless steel

*3/32" OD aircraft cable. DC resistance is approximately one ohm per 50 ft. of cable. **304 stainless steel housing and hardware.

^Nylon covered cable (1/8" O.D.). Refer to reelcraft.com for dimensions.

Twin Hose, Spring Retractable Reels

Dual Hydraulic - 1/4", 3/8", 1/2" I.D.

- Used for medium pressure, dual hydraulic hose applications
- Ideal for operating hydraulic cylinders, tools, and equipment
- Incorporates contemporary engineering and manufacturing techniques to give a trouble-free performance
- Hose specifications - polyester elastomer tube with proprietary polyurethane blend, perforated black cover
- Individually powder coated components offer the maximum protection from premature corrosion
- The high quality spring steel is conditioned to ensure there are no imperfections offering maximum service life
- Declutching arbor virtually eliminates the possibility of spring damage due to reverse winding
- All models include a full flow, high volume swivel for maximum delivery

Spring Retractable, Hand Crank, Motor Driven Hose Reels

Water - 1/4", 3/8", 1/2" I.D.

- Compact design and quality steel construction
- The high pressure water swivel is designed to handle a broad range of pressures, temperatures, and chemicals
- Ideal for agricultural, marine, equipment cleaning, and pressure washing applications
- Individually powder coated components offer maximum protection from premature corrosion
- Models without hose are rated up to 5000 PSI
- Full flow swivel combines the highest grade seal design and materials with bearing areas to ensure maximum service life
- Available in hand crank, spring driven, or electric motor drive models

Technical drawings of three different light fixture models (1, 2, and 3) showing their dimensions. Model 1 is a side view of a rectangular fixture with dimensions E (height) and F (width). Model 2 is a top view of a circular fixture with dimensions A (height), B (diameter), and C (mounting bracket width). Model 3 is a side view of a rectangular fixture with dimensions D (height) and E (width). All models have a mounting bracket with four holes, labeled (4) Places, and a diameter of 413 mm.

Spring Retractable & Hand Crank Hose Reels

Air/Water - 1/2", 5/8", 3/4", 1" I.D.

Spring Retractable

- Models include outlet hose with brass on/off ball valve, bumper, and inlet hose providing a reel solution out of the box
- Comes equipped with garden hose end fittings
- Guide arm is easily adjustable to numerous positions
- All steel parts are individually powder-coated for maximum corrosion resistance
- Designed to be mounted centrally and used for watering and washdown
- Reel components are made from industrial grade steel

Hand Crank

- Ideal for longer lengths of hose and larger storage capacity
- All models include a 10 ft. inlet hose
- Designed to be mounted centrally and used for watering and washdown
- All steel parts are individually powder-coated for maximum corrosion resistance
- A 3/4 in. garden hose adapter for the outlet hose is included (except GCCB37118 L)
- Reel components are made from industrial grade steel

Light Duty Hand Crank Hose Reels

Air/Water - 3/8", 1/2" I.D.

- Designed for lighter-duty applications that require longer lengths of low pressure hose
- Incorporates a balanced brass swivel, brass inlet, lighter weight components, and forward-thinking design
- All reels feature a drag break to prevent de-spooling when reel is not in use

Medium Duty Hand Crank Hose Reels

Air/Water - 3/8", 1/2", 3/4" I.D.

- Economical reel designed for medium duty applications requiring long lengths of hose
- Suitable for plant or field use such as turf care, pest control, steam cleaning, and more
- The T-handle tensioning device allows proper tension to be applied to the spool
- Hand crank handle can easily be rotated out of the way by loosening the set screw
- Shipped completely assembled, ready to install

Hand Crank and Motor Driven Reels

Series 30000 - Air/Water/Oil - 1/2", 3/4", 1" I.D.

- Designed for rugged applications requiring long lengths of hose and large storage capacity
- All-bolted unitized construction, full flow swivel and heavy gauge steel frame, spool, and drum ensure longest service life
- Vibration-proof, self-locking fasteners are ideal for industrial use
- Optional lock pin to prevent spool rotation when the reel is not in use, S600874

Removable gooseneck makes hose installation easy.

Portable Hose Reel and Cart

- Series 30000 reels mounted on a portable cart are designed for rugged, heavy-duty applications requiring long lengths of hose and large storage capacity
- Helps to improve response time and reduce hose wear by storing them on a reel

Hose Reel and Cart Packages	
Package	Items Included
600965	12" hand crank hose reel (CA32112 L); 12" hand cart with pneumatic tires (600741-1); 10' inlet hose (600962)
600966	12" hand crank hose reel (CA32112 L); 12" hand cart with semi-pneumatic tires (600741-2); 10' inlet hose (600962)
600968	18" hand crank hose reel (CB37118 L); 18" hand cart with pneumatic tires (600885-1); 10' inlet hose (S600982-10)

Additional Hoses

Hose: 1" ID x 100', 1" NPT x 1" NPSH: **S600982-100**

Hose: 3/4" ID x 150', 3/4" NPT x 1" NPSH: **601044-150**

Hose Reel and Trailer

- Rugged, self-contained hose reel trailer easily attaches to most off-road vehicles or carts
- Makes spot watering easier, quicker, and more convenient
- Pre-drilled for 12" or 18" Series 30000 hose reels

Hose Reel and Trailer Packages	
Package	Items Included
600911	Trailer (600810); Hand rewind hose reel (CB37118 L); 10' lead hose (S600982-10); Roller bracket, top wind (S602133-3)
600910	Trailer (600810); 12 V DC Motor driven hose reel (EB37118 L12D); Switch and bracket (S600808); Battery box, battery not included (S600812); Chain guard (S600518); Roller bracket, top wind (S602133-3); Roller bracket, bottom wind (S602132-3); 10' lead hose with 1" I.D. (S600982-10)
600810	Trailer only - does not include hose or reel. Reels designed for trailer include motor driven EB37118 L12D and hand crank CB37118 L. Trailer weight 154 lbs / 70 kg.

600910
(hose not included)

Trailer Accessories	
	S600812: Battery Box - Battery not included. Supplied with mounting hardware. Inside dimensions = 9" height x 14" width x 7 ¹ / ₂ " depth
	600814: Battery Cable Connector
	S600518: Chain Guard
	S600808: Operating Switch
See page 42 for switches, motors, and chain guards.	

Trailer Dimensions	
Trailer designed for off-road use only, not for passenger transport. Maximum weight capacity 400 pounds. Maximum speed 15 miles per hour. Trailer, reel, and accessories sold separately.	

Reelcraft: Safer by Design

Adjustable Bumper Stop

Allows any desired length of cord to be maintained outside the reel.

Corrosion-Resistant

Steel components are individually powder coated to virtually eliminate corrosion.

Reelcraft offers many styles of outlets and lamps

- Single receptacle
- Twist lock
- Duplex outlet box
- Triple tap
- Quad outlet box
- R.V. plug
- Reverse plug
- Flying lead
- Incandescent
- LED

Easy to Mount

Attaches to most structurally sound surfaces. Edges are curved for safety.

Note: Swing brackets should be used if cords are pulled at more than 45°, see page 43.

600993

Shown: L 4545 123 3

Adjustable Guide Arm

Multiple guide arm positions for versatile uses and easier field adjustment.

Enclosed Drive Spring

Drive mechanism is enclosed for protection against the environment.

Long Life Drive Spring

Declutching arbor virtually eliminates possibility of spring damage due to reverse winding of reel spool.

Structural Strength

Robotically welded heavy gauge steel frame.

Model Number Significance

This chart is for reference purposes only. Reels cannot be ordered by selecting from this chart. Please refer to selection charts on pages 29-32 or consult Reelcraft for any questions about option combinations.

Third Party Listings

UL 355 - UL Standard for Safety Cord Reels

UL Listing means that **UL** has tested representative samples of a product and determined that the product meets specific, defined requirements. These requirements are often based on **UL's** published and nationally recognized Standards for Safety.

- UL tests the product and the manufacturing facility to certify that the product is safe if used as intended
- Recognized as the standard worldwide
- Mitigates insurance liability

CSA - C22.2 NO. 21-95 - Cord Sets & Power Supply Cords

CSA International certification marks indicate that a product, process or service has been tested to a Canadian or U.S. standard and it meets the requirements of an applicable **CSA** standard or another recognized document used as a basis for certification.

- Similar to UL, but preferred in some instances

Series L 3000 Cord Reels

- Ultra-compact for a wide range of bench mount or mobile applications with critical space requirements
- Easily fit within a 1 ft. x 1 ft. space
- Multiple slotted mounting holes to accommodate many configurations

NEW!

- All Series L 4000, L 5000, and L 70000 reel models supplied with cord are complete with a 4-5 foot pigtail and three-prong plug (except flying lead reels)
- Compact for critical space requirements
- Engineered for industrial and commercial use
- Durable abrasion and corrosion resistant baked-on powder coat finish
- Wall, ceiling, or bench mount

	#1 - Incandescent Light (75 watt max) Single receptacle tool tap; Push-through switch, metal grounded guard
	#10/10C - LED Light (930 lumens) Two ultra-high intensity 4-watt LEDs; Single 3-watt end spot light; Polycarbonate shatter-resistant light tube; In-line tool tap, NEMA 5-15R configuration maximum 12 amp draw
	#11 - LED Light (930 lumens) Two ultra-high intensity 4-watt LEDs; Single 3-watt end spot light; Polycarbonate shatter-resistant light tube

NEMA 4 Power Cord Reels

- NEMA 4 rating provides protection against water or dust, indoor and out
- Cast aluminum construction with yellow powder coat finish
- Large, easy to access junction box
- One inch (NPT) pipe thread opening provided for conduit inlet
- Guide arm is adjustable every 5° over a 270° arc
- Containerized drive spring allows for safer, easier maintenance

Stainless Steel Power Cord Reels

- Designed for applications where corrosion or sanitation are a concern
- Includes a robotically welded base, engineered structural supports, and heavy gauge, electropolished 304L stainless steel
- Robust collector ring assures maximum conductivity current flow
- Includes a 4-5 ft. pigtail and a multi-positional guide arm
- Space-saving design makes them ideal for minimum space requirements

Spring Retractable Single Line Fuel Gas Welding Hose Reels

Series SW - 1/4", 3/8" I.D.

Reel

- Hard coated, wear-resistant aluminum double-sealed full flow swivel
- Corrosion resistant baked-on powder coat

Hose

- Ideal for welding service – meets ARPM IP-7 and CGA E-1 standards for T-grade
- Non-conductive
- **Tube:** Synthetic rubber compound compatible with all common welding fuel gases
- **Reinforcement:** Spiral synthetic yarn
- **Cover:** Red synthetic rubber with ribbed surface

NOTE: All Series SW reels are listed to UL 1351 (reel only)

Features

- Designed to improve safety in the work area with an increase in productivity and efficiency
- Full flow shaft swivels
- Double-sealed, O-rings prevent leakage
- Durable abrasion and corrosion resistant baked-on red powder-coated finish
- Reel frame, spool, and drum are fabricated of heavy gauge steel

Fuel gases commonly used in the welding, pre-heating, soldering, brazing, laboratory, heat gun, and cutting industries including, but not limited to, Acetylene, Hydrogen, Methane, Natural Gas, LP Gas, Mapp, and Propane

Dual swivel is an exclusive Reelcraft design

The aluminum dual swivel body is hard coated for wear resistance. This assures positive separation of gases due to its unique design. Available with Series TW5000, TW7000, and TWHD70000 reels.

Advise product to be handled, maximum temperature, and pressure fitting size when ordering. **Caution:** Be sure working pressure required does not exceed above ratings.

Hand Crank / Spring Retractable Welding Cable Reels Series CEA / WC

- Designed to improve safety in the work area with an increase in efficiency and productivity
- Cable reels have a current path through a continuous 400 or 700 AMP, 90 V DC (maximum) rated enclosed slip ring
- Keeps work area and vehicles better organized, resulting in better space utilization
- Stores cable when not in use, eliminating tangled, kinked welding cables
- Welding cable reels store work lead or electrode lead, up to 4/0, safely and effectively when not in use. Each lead requires a separate reel. When welding also refer to ANSI/Asc Z 49.1
- Maintains proper bend radius of cables, providing longer cable life

*May exceed maximum cable length allowable for most welding applications. **NOTE:** Each cable requires separate reel.

**Hand crank reel

Hand Crank Reels

Up to 150' fuel gas

Up to 100' 8/3 cable

- Designed for manual winding of air/water/fuel gas hose, electric cord, and welding cable
- Ideal for applications where space, weight, and flexibility are key
- Offer trouble-free management of large capacities of hose or cord
- Glass-filled nylon spools are very strong and durable while ensuring that no conductivity occurs
- A substantial welded aluminum base is used to support the weight of the spool

Side-by-side combinations

T-2462-0

Stacked combinations

T-2464-0

Single welding

For indoor non-weathertight applications only. *Air hose side has 1/2" (12.7mm) inlet												

For indoor non-weathertight applications only. *Air hose side has 1/2" (12.7mm) inlet.

Caution: Compressed air hoses should not be converted to oxygen service. Compressed air hoses are often contaminated with an oil coating, which can react explosively when oxygen is introduced. Oxygen/Acetylene cannot be combined with welding cable or power cord. **Note:** Safe-T-Reels are available with cable or hose and in various combinations. Please consult Reelcraft customer service for additional information.

Detail of heavy duty shaft

with tapered roller bearing for high rigidity

Shaft sizes are 1" to 1.25" in diameter, supported by tapered roller bearings with 2" to 2.3" housings.

Visit reelcraft.com/catalog for complete product specifications, parts, and accessories.

Inlet & Outlet Welding Hoses

See page 36

Top Five Benefits

1. Balances the weight of assembly tools, making them nearly weightless
2. Reduces operator fatigue
3. Improves safety and ergonomics
4. Increases productivity by keeping tools positioned for immediate use with minimal operator motion
5. Reduces tool damage by preventing tools from being accidentally dropped

Safety Clip - 261241

Bright zinc plated steel cable and safety latch for tool attachment and other uses. Measures 2.375" (60 mm) long. Included with each model.

Nylon covered steel cable with safety clip. Brings tools closer to work area without unwinding cable from reel or mounting reel at lower height.

**Tool balancers
make tools nearly
weightless and
reduce operator
fatigue!**

Optional Accessories

Cables can be combined for added length

Overhang Cable	
Model No.	Length
600605-3	3.0 ft / 91.5 cm
600605-5	5.0 ft / 152.4 cm
Safety Cable/Chain	
600603*	1.0 ft / 30.5 cm
600604**	1.0 ft / 30.5 cm
*Nylon covered steel cable (1 to 6 lbs models)	
**Steel link chain (10 to 23 lbs models)	

Strongly recommended, secondary steel cable or steel link chain. Prevents balancer from accidental fall. Balancers have extra holes for cable or chain.

Inlet Hose Assemblies

Partial List - Refer to Reelcraft.com for a complete list
A flexible hose connection must be used between the hose reel inlet and the source of supply to prevent possible misalignment and binding or warranty is void. Please furnish the following information when ordering: part number, product, and pressure to be handled. **NOTE:** Swivel fittings are recommended to protect hose during installation.

Part Number	I.D. in	O.D. in	Length ft	Pressure psi	End Fittings in - NPT(M)	Wgt. lbs

Adjustable Bumpers

Partial List - See page 28 for cord reel bumpers, page 37 for welding cable bumpers, or Reelcraft.com for a complete list

When ordering, advise the part number, reel model, and the hose I.D. and O.D. Refer to Reelcraft.com for dimensions.

NOTE: To order hose bumper with stainless steel hardware, change part number prefix from HR to HS.

Heavy Duty Reel Protective Covers

- Designed to withstand the rigors and abuse of daily use
- High quality polyester fabric with PVC coating proven to resist puncture, tears, and abrasion
- Superior UV resistance to resist fading and degradation
- Extends life of hose and reel by protecting from the elements
- Cover cinches around reel with Velcro and security snap for full reel protection
- Accommodates multiple guide arm positions
- Low temperature resistance to cracking (rated to -40 °F)
- Flame Resistant – NFPA 286, NFPA 701, ASTM E84, ASTM D 6413

**Protect your reels
from the elements!**

Mounting Bracket		
260532	Combination for circuit breaker, solenoid and starting switch	
Junction Box		
370200	For explosion proof motor	Any explosion proof motor
Chain Shrouds		
S600518	Optional chain shroud for Series 30000 and Series 1200 reels.	
S261746	Optional chain shroud for Series 2400, 3700, and 3900 reels.	

Operating Switches

Part No.	Specification	Use with Motor
Momentary Switches		
S600870	115/230 V AC, 10 AMP fuse	S260430
600811	12/24 V DC, up to 1/3 HP, breaker and relay	S260409 260450
S600808	600811 switch with bracket, 12/24 V DC	S260409 260450
600869	12/24 V DC, up to 2/3 HP	S260626 S260583
260424	Momentary contact with rubber cap, 12/24 V DC, non-explosion proof	Any DC motor
260425	Momentary contact, class 1 group D, 115 V AC. May also be used with solenoid for 12 or 24 V DC.	Any explosion proof motor
Speed Controls		
600871	115/230 V AC, 10 AMP	S260430
600866	12/24 V DC	Any DC motor
Momentary Switches with Speed Control		
S600872	115/230 V AC, 10 AMP fuse, adjustable speed control	S260430
600873	115/230 V AC, 10 AMP fuse, forward/reverse adjustable speed control	S260430
600867	DC, 25 AMP, up to 1/3 HP	S260409
600868	DC, 40 AMP circuit breaker, up to 2/3 HP	S260583
Air Motor Control Valves (Recommend using a filter, regulator, and lubricator with compressed air motors)		
260454	Pneumatic on/off flow control valve assembly, 1/4" NPTF (F) inlet for 4 AM compressed air motors.	260428
260455	Pneumatic on/off flow control valve assembly, 3/8" NPTF (F) inlet for 6 AM compressed air motors.	260429

All switches (except 600873) are uni-directional.

These four-way roller guide assemblies are for use with reels on cabinet door openings and for similar locations where sharp edges may cut or damage the hose. The four-way design permits pulling or retracting hose at any angle. Model S270109 has nylon rollers mounted on an 11 gauge steel frame with pre-drilled mounting holes.

Note: A hose bumper should be used with the four-way roller hose guide assemblies to prevent damage to rollers and nozzles.

Pivot Bases Not intended for mobile applications.

Top Mounting Channels and Beam Clamps

600370 Top channel and beam clamps - for one reel
 600295 Top channel and beam clamps - for two reels
 For mounting Series 7000 reels to an I-beam or overhead support. Mounting channels can be mounted end to end to mount three or more reels. To permit the mounting of Reelcraft Series RT, 4000, 5000, 5005, and electric cord reels on mounting channel, an adaptor assembly must be used (#600230).

600230 Adaptor Assembly

Used with top channels and beam clamps only.

Roller Guide Assemblies

Three-way rollers

Four-way rollers (multi-position)

Spools and blocks are chrome-plated to resist corrosion and abrasion. Rollers speed handling and reduce wear on hose. All painted parts are finished with durable abrasion resistant baked-on powder coat. Delrin bearing surfaces give a quiet operation with minimum wear and all features combine to give trouble-free maximum service life.

For the special HDPE composite rollers, add a "U" at the end of the part number. (Example: S600693-1U)

Hose Reel Spool Size	Bottom Wind Roller bracket assembly	Top Wind Roller bracket assembly	Multi Position Roller bracket assembly
in mm	model number	model number	model number
Series 30000 - Four Way Rollers			
6 152	S600693-1	S600692-1	S600533-1
12 305	S600693-2	S600692-2	S600533-2
18 457	S600693-3	S600692-3	S600533-3
Series 30000 - Three Way Rollers			
6 152	S602132-1	S602133-1	
12 305	S602132-2	S602133-2	
18 457	S602132-3	S602133-3	

Bottom wind and top wind may be used with all models except bevel crank. Multi position may not be used on models with a chain guard or Series 37000 reels.
